

## Stay

## Little Big Town

How can I bear to wake up and you're not there  
What will I do when I turn and reach for you  
I'll lay my tears on the windowsill  
I'll only cry till I get over you  
But how long will that take me  
Won't you save me... and

Stay  
Just a little bit longer  
Till I'm a little bit stronger to take all this  
Stay  
Just a little more time  
Till I can find a way  
Please stay

Will I ever smile again  
When losing love takes my best friend  
To wonder where, wonder how  
Wonder what you're doing  
One more night just before you break me  
Hold me safely

Stay  
Just a little bit longer  
Till I'm a little bit stronger to take all this  
Stay  
Just a little more time  
Till I can find a way  
Please stay

So I'll be a big girl, and just close my eyes  
As you walk away don't say goodbye  
God save me  
Please won't you

Stay  
Just a little bit longer  
Till I'm a little bit stronger to take all this  
Stay  
Just a little more time  
Till I can find a way  
Please stay
