

Baby Blue

Little Birdy

Am I too young for you, babe
Am I too stupid to see
When I get home to see you
I rush after your charms

It's naughty, to be here

And my love song for you, babe
Is it all that you propose
Then I'm lyin on top of you
Wait I can not see

It's naughty to be here
It's naughty...

But I can't say that I love you anymore
I just wanna make you happy
Just living for today
Baby Blue I'm yours
But I only wish it was my plan
Change the wild love song
To the one you hate

Is it all that your waiting for
Patience and you'll see
That in too long you'll be alone
You let me go

Its naughty to be here
Its naughty...

But I can't say that I love you anymore
I just wanna make you happy
Just living for today
Baby Blue I'm yours
But I only wish it was my plan
Change the wild love song
To the one you hate

It's naughty to be here
It's naughty..
