

# I Should Of Known

Little Birdy

Have you got  
Anything worth waiting for  
Tear my heart  
Tear my heart so it's on the floor  
I should of known with you  
i should of known with you  
Better than that

But it's too late  
It's too late to not let you go  
Cause you're suitcase  
it is lining the heart you stole  
I should of known with you  
I should of known with you  
Better than that

But it's all that you left But it's all that you left  
I can love you now  
But it's all that you left but it's all that you left  
It's too late

I should of known with you  
I should of known with you Better than That x2

But you you burned a hole  
You burned a hole in my heart  
Disarm and let it slide  
i will be the one you want  
this lazy love will not help my aching bones

But it's too late  
the patient man quielty awaits  
And you're suitcase  
it is lining the heart you stole

I should of known with you  
I should of known with you Better than That x2

But you you burned a hole  
You burned a hole in my heart  
Disarm and let it slide  
i will be the one you want  
this lazy love will not help my aching bones
