

Too Late

Little Birdy

There's a party going on somewhere
You should know where to go
and if you want to be with me baby
i won't leave you alone
Cause this world isn't the only place that i want to be

I feel totaled i feel that i'm all gone
My heart isn't a rock
come on baby come and steal my siesta
And only you have

And i want to make love to you oh yeah
through the night
Tell me what do you hold your
head so fuckin high

Cause it's too late oh it's too late
i'm only half the woman i should be
Oh it's too late Oh it's too late
i'm only half that i should

I don't wanna i don't wanna be second
hulla for me now
come on baby come and steal my siesta
And only you have

And i want to make love to you all long
through the night
Tell me what do you hold your
head so fuckin high

Cause it's too late oh it's too late
i'm only half the woman i should be
Oh it's too late Oh it's too lat
i'm only half that i should

Ooh i've grown
In love....
