

# All for You

Little Boots

Tell me why, must we sleep  
Tell me why, we want things we can't keep  
Tell me why, we have no choice  
Tell me why, these illusions have a voice

Oh oh oh oh, all that I've got to give  
Oh oh oh oh, it's all for you  
Oh oh oh oh, all that I need to live  
Oh oh oh oh, it's all for you

When I think about my life  
And all of my possessions  
Everything I own, it's all for you  
At the end of my days  
When they ask what it was all for  
I will say

It's all for you... it's all for you... it's all for you...  
It's all for you... it's all for you... it's all for you...  
It's all for you... it's all for you... it's all for you...  
It's all for you... it's all for you... it's all for you...

I don't know why, we live to dream  
I don't know why, we crave things we don't need  
I don't know why, we live to die  
I don't know why, we're never truly satisfied

Oh oh oh oh, all that I've got to give  
Oh oh oh oh, it's all for you  
Oh oh oh oh, all that I need to live  
Oh oh oh oh, it's all for you

When I think about my life  
And all of my possessions  
Everything I own, it's all for you  
At the end of my days  
When they ask what it was all for  
I will say

It's all for you... it's all for you... it's all for you...  
It's all for you... it's all for you... it's all for you...  
It's all for you... it's all for you... it's all for you...  
It's all for you... it's all for you... it's all for you...

(Everything I own, it's all for you)

When I think about my life  
And all of my possessions  
Everything I own, it's all for you  
At the end of my days  
When they ask what it was all for  
I will say

It's all for you... it's all for you... it's all for you...  
It's all for you... it's all for you... it's all for you...  
It's all for you... it's all for you... it's all for you...  
It's all for you... it's all for you... it's all for you...

It's all for you... it's all for you... it's all for you... (everything I own)  
It's all for you... it's all for you... it's all for you...

(Everything I own, it's all for you)
