

Confusion

Little Boots

Turn it up, turn it up

You're playing games, oh oh
Do you think that you can break my heart again?
Everything's changed, oh oh
Are you happy that you're driving me insane?

Everything's changed,
You're not the same
Who can I blame?
Who can I blame?

I've been caught up in a lie
Haven't called you in a while
Confusion, confusion
You've been up in a lie
But at least you could've tried
Confusion, confusion

Confusion, confusion
Confusion, confusion
Confusion, confusion
Confusion, confusion

Can you explain? Oh oh
Do you really think my heart could take the pain?
It's such a shame, oh oh
Now you're happy, now you've nothing left to gain

Everything's changed,
You're not the same
Who can I blame?
Who can I blame?

I've been caught up in a lie
Haven't called you in a while
Confusion, confusion
You've been up in a lie
But at least you could've tried
Confusion, confusion

Confusion, confusion
Confusion, confusion
Confusion, confusion
Confusion, confusion

Never lie to me again, never lie to me again
Never lie to me again, never lie to me again
Never lie to me again, never lie to me again
Never lie to me again, never lie to me again

I've been caught up in a lie
Haven't called you in a while
Confusion, confusion
You've been up in a lie
But at least you could've tried
Confusion, confusion

Confusion, confusion
Confusion, confusion
Confusion, confusion
Confusion, confusion

I've been caught up in a lie... caught up in a lie..
I've been caught up in a lie... caught up in a lie..
