

# Every Night I Say a Prayer

Little Boots

Love is darkness lying by the light  
love it lead you listen for the cry  
Ahhh  
I will find you every time I turn you're there

I have seen you into the future  
I want you to take me there  
I have seen into the future  
every time I say a prayer  
every night I say a prayer

Hoping for forgiveness  
We all make mistakes  
I wanna walk beside you  
I've gotta keep the faith

Uhh  
now that I fond you never gonna let you go

I have seen you into the future  
I want you to take me there  
I have seen into the future  
every night I say a prayer  
every night I say a prayer  
oh oh  
every night I say a prayer  
every night I say a prayer  
oh oh  
every night I say a prayer  
every night I say a prayer

I know where we're going  
I know where we're going

Oh oh  
every night I say a prayer  
every night I say a prayer  
Oh oh  
every night I say a prayer  
every night I say a prayer  
oh oh  
I know where we're going  
I know where we're going  
Oh oh

I have seen you into the future  
I want you to take me there

every night I say a prayer  
every night I say a prayer

I know where we're going  
I know where we're going
