

Not Now

Little Boots

Woke up in a big white bed
In the sun
In the sun
Looking down on Jesus
Posing with a friend or anyone

So we went for some breakfast
Coffee and Tea
That's when I realised your sugar I need

Now now, not now baby
Don't take this moment from me
Not now, not now baby
Wait till tomorrow
I'll be leaving
Not now you can't save it
Let today be coz if we come back
It's gonna be gone

Ooh

Took a drive headed for the sea
In the middle January we
Talked about the future
And ate ice cream
Just happy to be

And how I laughed when some old man
Said that you looked like Duran Duran

Not now, not now baby
Don't take this moment from me
Not now, not now baby
Wait till tomorrow I'll be leaving
Not now, not now baby
Don't take this moment from me
Not now, not now baby
Wait till tomorrow I'll be leaving
Not now

You know that You can't save it now
This time tomorrow I'll be gone
Not not, not now Baby
Don't take this moment from me
Not now not now baby
Wait till tomorrow I'll be leaving
Now now you can't save it
Let today be

Now now not now baby
Don't take this moment from me
Not now, not now baby
Wait till tomorrow I'll be leaving
Now not you can't save it
Let today be coz if we come back
It's gonna be gone

You know that you can't save it now
This time tomorrow I'll be gone
