Paradise

Little Boots

I found a place that is holy Somewhere to feel like a child Where I escape when I'm lonely For a while

When I'm needing resurrection Something to bring me to life Whenever I'm craving attention Inside

But I can't stay
It's so wrong, it's so right
It's a fool's paradise
And I can't stay
It's so wrong, it's so right
It's a fool's paradise

Back to the real world
Into the gray
Back to the real world
All the color's fading
Back to the real world
Can't run away
Back to the real world
All the color's fading

It's hard to hold onto a feeling When nothing is left in your hands Was it for real? Was I dreaming? I don't understand

Why I can't stay
It's so wrong, it's so right
It's a fool's paradise
And I can't stay
It's so wrong, it's so right
It's a fool's paradise

Back to the real world Into the gray Back to the real world All the color's fading Back to the real world Can't run away Back to the real world All the color's fading

Paradise, paradise, paradise Paradise, paradise, paradise

Back to the real world Into the gray Back to the real world All the color's fading Back to the real world Can't run away Back to the real world All the color's fading

Paradise, paradise, paradise Paradise, paradise, paradise Paradise, paradise, paradise Paradise, paradise, paradise
