

# Semaphores On The Lawn

Little Comets

Oh when you met at the tenth of march  
You thought I cut your back on the railway heart  
She say you can just pretend  
Do it many times and I kiss your friend

Semaphores on the lawn you got it enough  
Semaphores on the lawn you got it enough  
And the moment is gonna pass me by  
In a blink of a eye

She passed in the dead of tune  
Listening to the empty room  
Till you push me as a life turn back  
Burning like a feeling in both her hands

Semaphores on the lawn you got it enough  
Semaphores on the lawn you got it enough  
'Cause we are  
Semaphores on the lawn you got it enough

For a long time I was drenched in words that I would  
say ,if only  
You can get there many moments lost but if you take it  
slowly  
So won't you come and take another sip of more wine  
'Cause we've been dancing on your distant for a long  
time

I can do it I can do it like a new friend  
I can make her every moment like a past tense  
Yeah yeah yeah

Semaphores on the lawn you got it enough  
Semaphores on the lawn you got it enough  
'Cause we are  
On my fall of the night you got it enough  
'Cause we are  
Semaphores on the lawn you got it enough
