

# Nabuma Rubberband

Little Dragon

Lurad

The last bird  
Smashed into a skyscraper  
Under the Hong Kong lights  
It fell pale  
Like a sink  
Landed on the night drain  
Fell a strong right  
While underground  
The tunnel reveal  
Voiceless land  
The harder to feel  
For being born at the wrong place  
At the wrong time  
With a wrong fate

Rockets fly out  
Razor  
Colour  
Sky now  
Don't forget icing on the sides  
Because you can  
Blinded by the rubberbands  
Blinded by the rubberbands  
Blinded by the love

Cigar smoke stretchin' over borders  
Creepin' like a silent thief  
The bird stares  
Sleeping like an icon  
Make it fly  
Could rest in peace  
Intelligent  
So fly  
Can't think out loud  
Cause now's the time  
Don't lose your job  
Stare in and smile  
Camera left

Rockets fly out  
Razor  
Colour  
Sky now  
Don't forget icing on the sides  
Because you can  
Blinded by the rubberbands  
Blinded by the rubberbands  
Blinded by the love  
Rockets fly out  
Razor  
Colour  
Sky now  
Don't forget icing on the sides  
Because you can  
Blinded by the rubberbands

Blinded by the rubberbands  
Blinded by the love
