

## Please Turn

Little Dragon

With your clover, pickin' cherries  
Taking pills and runnin' with the steam  
Love's so make believe

Swingin' branches by your mission  
And by the Porches, poles and leopard skin  
Got you dancin' in

Please, pull the string now  
Turn, the winds are runnin' 'round  
Oh, if diamonds don't lift dark  
Oh, the color's shift and cut

Starin' down at the wonderin' faces  
Watch your place  
But on the papers you can shine and fly  
Smilin' in their eyes

Over land and over space  
You take me to that unreal place  
That I had ever known  
So don't you cry

Please pull the string now  
Turn, the winds are runnin' 'round  
Oh, diamonds don't lift dark  
Oh, the color's shift and cut

Please turn, oh  
Please turn, oh, oh
