

# Can't Believe You Wanna Leave

Little Richard

I can't believe you wanna leave  
When you know it'd hurt me so  
And on bending knees  
I beg you please not to go

Take the vows of love we had  
And all the fun that we had  
And now you know you wanna leave  
Don't you know that it'd drive me mad

My life  
My heart  
My love is in your hands  
And now you want to leave me  
You wanna leave me for another man

Take the vows of love we had  
And all the fun that we had  
And now - you wanna leave  
Now, don't you know that would drive me mad

My heart  
My love  
My life is in your hands  
And now - you want to leave me  
You wanna leave me for another man

Take the vows of love we had  
And all the fun that we had  
And now you know you wanna leave  
Now, don't you know that would drive me mad
