

# I Don't Want To Discuss It

Little Richard

See your bag's packed and you're ready to go  
There's just one thing I think that you all ought to know  
You're my girl, you're my girl

I don't wanna discuss it woman  
ain't no need to try  
I don't wanna discuss it baby  
come on baby try  
You're my girl, listen baby, you're my girl

I don't wanna talk about it  
I don't wanna hear you say  
I don't wanna even discuss it woman  
I don't wanna hear what you say  
'cause you know that  
You're my girl, you're my girl  
You're my girl, you're my girl, no no

I know that you've been running 'round  
with another man in town  
Tried to put you right woman  
but you keep on putting me down  
Listen to me now, you're my girl  
You're my girl  
You're my girl  
get in there

I don't wanna talk about it woman  
'cause I know you got another man  
I don't wanna say another word  
just get back where you're at  
You got to tell me 'cause  
You're my girl, come on baby  
You're my girl, you're my girl oh-oh

You're my girl  
You're my girl  
You're my girl
