

It's Not A Wonder

Little River Band

When I'm down, you're always there just to see me through
You understand everything that I do
It's not a wonder that I care for you

And so babe, it's only fair we should hold on tight
Please be careful just to follow the light
I promise everything will be alright

Oh, there ain't nothing sadder than missing so the one you love

And there ain't nothing truer than thoughts of love I'm thinkin
