

## L.A. In The Sunshine

Little River Band

L.A. in the sunshine,  
Or it's Denver and we're snowblind,  
All the palm trees on the skyline,  
It's a good day, it's a good time.

Getting into all that I have seen,  
Getting off on everywhere I've been.

What a shame down on the jetstreet,  
That we fell for the old country,  
Not impressed, man, we got ripped off,  
When we need next, they'll see the next star.

I don't know how, I've made it this far,  
It seems like years, I've lost track of time,  
What can I say, when you smile and say

"Can we make it?  
Or you'll fake it,  
What you say now,  
Can we make it?"

Getting into all that I have seen,  
Getting off on everywhere I've been.

Now I'm playin' ping pong, on a pub flight,  
Drinkin' Champagne til after midnight,  
Oh, we flew high on a sweet dream,  
Happy landings, baby, where have you been?

I've been getting into all that I have seen,  
Getting off on everywhere I've been.

Back to L.A. in the sunshine,  
After Denver when we got snowblind,  
All the palm trees on the skyline,  
She said, "Have a good day,  
Make sure you'll have a good time."  
(Have a good time ...)
