## L.A. In The Sunshine

## **Little River Band**

L.A. in the sunshine, Or it's Denver and we're snowblind, All the palm trees on the skyline, It's a good day, it's a good time.

Getting into all that I have seen, Getting off on everywhere I've been.

What a shame down on the jetstreet, That we fell for the old country, Not impressed, man, we got ripped off, When we need next, they'll see the next star.

I don't know how, I've made it this far, It seems like years, I've lost track of time, What can I say, when you smile and say

"Can we make it?
Or you'll fake it,
What you say now,
Can we make it?"

Getting into all that I have seen, Getting off on everywhere I've been.

Now I'm playin' ping pong, on a pub flight, Drinkin' Champagne til after midnight, Oh, we flew high on a sweet dream, Happy landings, baby, where have you been?

I've been getting into all that I have seen, Getting off on everywhere I've been.

Back to L.A. in the sunshine,
After Denver when we got snowblind,
All the palm trees on the skyline,
She said, "Have a good day,
Make sure you'll have a good time."
(Have a good time ...)
