

Light Of Day

Little River Band

Many a time the thought crossed my mind
Wonderin' 'bout people who walk around blind
They don't seem to see the light of day
Everything is just okay

Taking no head of what they can learn
Running in circles, no point of return
Heading for the door that reads escape
Anything that they can take

Hey boys, come out and dig the dance
Come on and take a chance
Believe in the light of day

Lonesome nights and wasted days
Leads a man from his true ways
Yet he tells you he nobody's fool
Breaking every golden rule

Hey boys, come out and dig the dance
Come on and take a chance
Believe in the light of day

Keep a watch on the sandman of time
Will he gaze into your eyes or mine?
Will he knock on your door and invite you to the other side?
Catch him writing the score as he takes you on another ride
Hang on tight boy, you're starting to slide

Hey boys, come out and dig the dance
Come on and take a chance
Believe in the light of day
Believe in the light of day
