

## Light Of Day

Little River Band

Many a time the thought crossed my mind  
Wonderin' 'bout people who walk around blind  
They don't seem to see the light of day  
Everything is just okay

Taking no head of what they can learn  
Running in circles, no point of return  
Heading for the door that reads escape  
Anything that they can take

Hey boys, come out and dig the dance  
Come on and take a chance  
Believe in the light of day

Lonesome nights and wasted days  
Leads a man from his true ways  
Yet he tells you he nobody's fool  
Breaking every golden rule

Hey boys, come out and dig the dance  
Come on and take a chance  
Believe in the light of day

Keep a watch on the sandman of time  
Will he gaze into your eyes or mine?  
Will he knock on your door and invite you to the other side?  
Catch him writing the score as he takes you on another ride  
Hang on tight boy, you're starting to slide

Hey boys, come out and dig the dance  
Come on and take a chance  
Believe in the light of day  
Believe in the light of day
