

# One Shot In The Dark

Little River Band

I was hangin' from the rafters  
Lookin' through the window  
Suddenly my ears were out in the street  
Sirens were screaming from far away  
All I can feel is the heat

I was at home only yesterday  
Something is happening to me  
Scared of what I might find  
Frightened for the first time  
Feels just like a movie here in my room

Sirens are screaming out in the street  
People just run everywhere  
Chaos and tension inside the heat  
Something is happening out there

One shot in the dark  
No one heard the dogs bark  
There was one shot in the park last night

One shot in the dark  
No one saw the blue spark  
There was one shot in the dark last night

Hiding on the rooftop, staring at the sky  
Waiting for my transport  
Take me home  
Everyone pushing to get away

I just can't believe what I see  
I was at home only yesterday  
Something is happening to me

One shot in the dark  
No one heard the dogs bark  
There was one shot in the park last night

One shot in the dark  
No one saw the blue spark

One shot in the dark  
No one heard the dogs bark  
There was one shot in the park last night

One shot in the dark  
No one saw the blue spark  
There was one shot in the dark last night

One shot in the dark  
The dogs bark  
In the park last night

Did anybody see it?  
The blue spark  
In the park last night

Did anybody see it?  
The dogs bark  
In the park last night  
Everybody heard it
