First Time For Everything

Little Texas

I don't stay out all night I don't close down the bars And I don't make a fool of myself Well, I don't drink too much And I don't get too loud And I don't ever raise too much hell

But there's a first time for everything Since you said goodbye There's not much of anything That I haven't tried To somehow get over you There's no tellin' what I might do 'cause if I've learned anything There's a first time for everything

I don't call up old flames 'cause I don't have a blackbook I don't spend all my time in the past I don't wake up with strangers 'cause I don't sleep around No I don't believe in love that won't last

But there's a first time for everything Since you said goodbye There's not much of anything That I haven't tried To somehow get over you There's no tellin' what I might do 'cause if I've learned anything There's a first time for everything

Yeah yeah

When I somehow get over you There's no tellin' what I might do 'cause if I've learned anything There's a first time for everything

Yeah yeah 'cause if I've learned anything There's a first time for everything Yeah Yeah yeah yeah
