I'd Hold On To Her

Little Texas

Guess I had my chance My one shot at true romance Only a fool would let it slip through his hands

So take it from the one Who dreams about the way things were If I were you I'd hold on to her

I've known her long enough I've seen her eyes when she's in love And I can tell that you're all that she's thinkin' of

So take it from the one Who dreams about the way things were If I were you I'd hold onto her

Now she's just beautiful words On a page I have turned And I'm longing to hold her And tryin' to get over a bridge That I shouldn't have burned

If I were you I'd hold onto her

So just treat her right Keep her safe and warm at night Give her your love and you'll have the love of your life

Just take it from the one Who dreams about the way things were If I were you I'd hold on to her

If I were you I'd hold on
