My Love

Little Texas

Get on your mark, get set Ready or not, here I come You've been looking for love Well, honey, I can give you some

When your world is standing still I can turn it around Put your head up in the clouds And pick your feet off the ground

My love, are you ready for my love, my love My love, my love is ready for you If you're looking for a heart that's always true Only to you, then my love My love, my love is ready for you

Girl, I've heard it said That love is food for the soul I see the hunger in your eyes Burning out of control

My love is overflowing from a loving cup Girl, I know you're down But love will lift you up

My love, are you ready for my love, my love My love, my love is ready for you If you're looking for a heart that's always true Only to you, then my love My love, my love is ready for you

My love is overflowing from a loving cup Girl, I know you're down But love will lift you up

My love, are you ready for my love, my love My love, my love is ready for you If you're looking for a heart that's always true Only to you, then my love My love, my love is ready for you

My love, my love is ready for you My love, my love is ready for you
