

Look At What The Light Did Now

Little Wings

Hear it like a pounce upon a pickle
Look at what the light did now
Bear it like a bounce upon the beagle
Look at what the light did now

Land and water and bird or beast, oh
Look at what the light did now
Shiny little band or golden fleece, oh
Look at what the light did now

[Chorus: x3]
Look at what the light did now

In my will I went 'till it's wasted
Look at what the light did now
Taste the taste I taste 'till it's tasted
Look at what the light did now

Bought it like a boast that burly beaming
Look at what the light did now
Got it like a ghost that girly gleaming
Look at what the light did now

[Chorus: x3]

Like a dead tree that's dry and leaving
Look at what the light did now
Play it on me with grief and grieving
Look at what the light did now

I would finally fall to pieces
Look at what the light did now
We'll meet soon as nephew's nieces
Look at what the light did now

[Chorus]
