

# Skintight

Liv Kristine

Time's up for you  
You know I will unzip the truth  
You lied, yes you tried  
You misbehaving thief  
Of lovers and grooms

Hands up for you  
Not a chance in the universe  
You'll fail or lose  
'Cause he's mine, always mine  
My found missing link  
Now you see why I am

Skintight like a minder  
Holding off the enemy  
From my lover's ardour  
He's mine only mine

In the still of the night you appear  
There's a spy in your eyes  
So I'll bite off that gleam  
You're not a stargazer  
You want my lover's delight

Soundless like a tiger  
I am sneaking upon my enemies  
I'm his lifesaver  
And I'll bite if you try  
You don't really wanna try

I see the spy in your eyes  
But I'm skintight, skintight
