

Waves of Green

Liv Kristine

Watching the tidals that wash to the shore - I never forget
Into these silent waves of all times - eternally

How long may this remain
Peace to the land
Nature and sea
Silent emotions are overcome
I wonder how
We can go on

Stormy times will we behold?
Do we still care
What future holds
So many words been said undone
The waves of green
They will flow on

Heal me, free me - dawning is near
Where is the saviour - for us to believe
As I sit here - on Norge's shores
Cries of the unheard - will they be heard
The waves of green - whispering my name
