

# You Take Me Higher

Liv Kristine

You take my higher  
Higher than I have ever been  
You take me higher  
I'm loaded with your energy

You take me higher  
Higher than I have ever been  
It's like the sunshine  
I'm loaded with your energy

Everybody wants the sun to come out and everybody wears the sun  
in their faces  
I love to be amazingly free  
Everybody wants to swim in the sea and everybody loves the breeze  
in their faces  
Flirt with me, it sets you free
