

I'm a soldier on the field  
Fightin' for you  
Fightin' for me  
You can see it on our faces  
Like the bullets leave tracers  
You can feel it for real

You can't imagine the pain of my babies so far away  
So far from my home

When they comin' home?  
When they leavin' that place?  
See their lover's face again  
Kid will see his daddy's face again  
When they comin' home?

Lord, shed some grace  
See their lover's face again  
Kid will see his daddy's face again

I'm a soldier on the field  
Waitin' to die, prayin' to live  
To survive one more day  
But my hope begins to fray  
It's my flesh against the steel

You'll never know what I've known  
You'll never see what I've seen  
I hope we make it home

When they comin' home?  
When they leavin' that place?  
See their lover's face again  
Kid will see his daddy's face again  
When they comin' home?

Lord, shed some grace  
Put your peace in the valley tonight  
Bring the soldier home alright  
When they comin' home?

When they leavin' that place?  
See their lover's face again  
Kid will see his daddy's face again

"So far from home", she cries  
"Politics aside, what I'd give to have him here tonight"

(Children playin' in the sun, home)

(Mama braidin' your sweet hair, home)
