Lakini's Juice

It was an evening i shared with the sun to find out where we belong from the earliest days we were dancing in the shadows

More whine cuz i got to have it more skin cuz i got to eat it

Inside the outside, by the river, used to be so calm used to be so same I rushed the lady's room took the water from the toilet washed her feet and blessed her name

More peace such a dirty habit slow down, we're too afraid

Let me ride let me ride burn my eyes
