

# Lighthouse

Live

The lighthouse lost its light on her a long time ago  
She got so used to it, this long and winding road  
I'll never ever let you go, oh  
I can't believe she whispered to me  
I don't wanna breathe  
Oh no

This ship of fools sails west by night-time and by day  
Circumnavigates her globe like a bullet gone astray  
Come on home baby, where it's safe  
I can't believe she whispered to me  
I don't wanna breathe  
I don't wanna breathe

Even if you drink from the chalice of cheap escape and fade away  
I'll never ever let you go  
I can't believe she whispered to me  
I don't wanna breathe  
I don't wanna breathe  
She whispered to me  
Now I can't believe she whispered to me  
Oh lord, lord, lord
