

# Nobody Knows

Live

I was on a street  
with a common name  
i prayed for love  
yeah i even begged  
i had a vision of you  
that carried me through

Now it's just magic worlds  
in a shaman's dream  
i fear no man, i fear no pain  
i had a vision of you  
that carried me through

And nobody really knows what i would do for you  
nobody really knows how much i love you  
nobody really knows, nobody knows  
nobody knows, nobody knows

I cleared my mind  
and i turned around  
grateful to the one  
who had laid me down  
i was silent in love  
pourin down from above

Like so much rain it fell  
and pierced my brains  
the trees all alive with their colors  
like the dreams of man  
i had a vision of you  
that carried me through

And nobody really knows what i would do for you now  
nobody really knows how much i love you baby  
nobody really knows, nobody knows...  
nobody knows..., nobody knows... yeah

I was on a street yeah  
with a common name  
i prayed for love  
oh baby i even begged  
i had a vision of you  
that carried me through

Nobody really knows what I will do for you  
(secret love is i wish i had)  
Nobody really knows how much I love you  
(secret love i wish i had)  
Nobody really knows, nobody knows...

Nobody knows... (4x) yeah  
nobody knows...(2x) oh yeah  
nobody knows...  
(how much i...), nobody knows  
(how much i..., just what i'll..., just what i'll...do for you)  
nobody knows... (just what i'll...)  
nobody knows...
