

Nobody Knows

Live

I was on a street
with a common name
i prayed for love
yeah i even begged
i had a vision of you
that carried me through

Now it's just magic worlds
in a shaman's dream
i fear no man, i fear no pain
i had a vision of you
that carried me through

And nobody really knows what i would do for you
nobody really knows how much i love you
nobody really knows, nobody knows
nobody knows, nobody knows

I cleared my mind
and i turned around
grateful to the one
who had laid me down
i was silent in love
pourin down from above

Like so much rain it fell
and pierced my brains
the trees all alive with their colors
like the dreams of man
i had a vision of you
that carried me through

And nobody really knows what i would do for you now
nobody really knows how much i love you baby
nobody really knows, nobody knows...
nobody knows..., nobody knows... yeah

I was on a street yeah
with a common name
i prayed for love
oh baby i even begged
i had a vision of you
that carried me through

Nobody really knows what I will do for you
(secret love is i wish i had)
Nobody really knows how much I love you
(secret love i wish i had)
Nobody really knows, nobody knows...

Nobody knows... (4x) yeah
nobody knows...(2x) oh yeah
nobody knows...
(how much i...), nobody knows
(how much i..., just what i'll..., just what i'll...do for you)
nobody knows... (just what i'll...)
nobody knows...
