

She

Live

Bring back that 'hair-down', unguarded mystery
I liked it better when your tightrope walked on me
Board up my window, prepare for a hurricane
You have a way of breaking through my barricade
You give me all-new games to play

You set me soul free
Now every word that she speaks to me is pure gold
She set my soul free
She give me love, give me hope, give me strength to bear my faults for you

Was my intention to take control again?
Somehow you got me on the ropes of my own plan
To turn up the volume and make you dance for me
Release some pressure so that I can turn and see
Spirit manifests as 'She'

You set me soul free (you set my soul free)
Now every word that she speaks to me is pure gold
She set my soul free (she set my soul free)
She give me love, give me hope, give me strength to bear my faults for you

Like a flower
I can see but I can't feel
Oh yeah
And nothing that you do could ever make me run, run away from you
I never knew, I never knew she could
She set my soul free
Now every word that she speaks to me is pure gold
She set my soul free (she set my soul free)
She give me love, give me hope, give me strength to bear my faults for you
