

Till You Came Around

Live

I used to think, that I really knew
what beautiful was
Believed it was clearly, set there in stone
Till you came around

Never knowing, what peace I could find
Love, beautiful mind
Had to go out, couldn't stay home
Till you came around, around

I learned you don't have to prove anything
Cause you changed the rules, the rules, the rules

As mystery's come and I understand
Life's beautiful plan
The love that I feel so terribly real
When you come around, around

I learned you don't have to prove anything
Or live for anyone else
Cause you changed the rules, the rules, the rules

I used to think that I really knew
Till you came around
