

# We Walk in the Dream

Live

I was wrong  
we are not these bodies alone  
in a dream with a mind of its own  
I, I know you long  
to be tethered and tied to the heart of the one  
the one that be layin' you down  
on that ancient ground  
nothin' more to be found  
ah yeah

Now we walk in the dream  
but dream no more  
to live a life in love the only thing in  
common was  
we knew there was somethin' more  
now we walk in the dream  
but dream no more  
to live a life in love  
to hear the voice in the wilderness  
the other side of the door  
somethin' more

I feel strong  
i'm finally at peace  
the war is all gone  
by no cause of my own  
like an eagle cuts through the air  
no time for fear  
faith in his wings takes him there

Now we walk in the dream  
but dream no more  
to live a life in love the only thing in  
common was  
we knew there was somethin' more  
now we walk in the dream  
but dream no more  
to live a life in love  
to hear the voice in the wilderness  
the other side of the door  
somethin' more!

More than these  
women in the streets pullin' out their hair  
somethin' more  
somethin' more than all the pain we feel  
somethin' more  
more than we could dream of, all light  
love-bliss, no death and no fear  
no fear!!!

Now we walk in the dream  
but dream no more  
to live a life in love the only thing in  
common was  
we knew there was somethin' more  
now we walk in the dream

but dream no more  
to live a life in love  
to hear the voice in the wilderness  
the other side of the door  
somethin' more

I was wrong  
oh yeah, i was wrong
