

You Are Not Alone

Live

So many people die everyday
Who lived everynight without hope
Spendin' their time just standin' in line
Tuggin' on society's coat

So many people live everyday
Like they ain't never gonna get old
Doin' their time like carps in the slime
Submarines with no periscopes

Oooo you are not alone
Oooo you are not alone

So many people keepin' the pace
Just the other side of grace
Fakin their smiles, just the rank and the file
Wild cheetahs put in a cage, oh baby now

So many people can't see the signs
Even know their eyes are just fine
Hittin' the stage a day late for the show
Astronomers with no telescopes

Oooo you are not alone
Oooo you are not alone, no child
Oooo you are not alone, no child
Oooo you are not alone

Nothin' in the world could keep me from lyin' next to you
Nothin' in the world could keep me from flyin' next to you
