

# Night Light

## Living Death

She said to me if I couldn't see  
And deep in the night when I turned out the light  
She came near and nearer, and in my dreams I see her  
But she didn't know, she thinks it was my show...  
My show, and she thinks it was my show

I whispered in her ear that she don't have to fear  
I try hard to tell her that I won't go leave her  
She came near and near a-ha-ha-ha, and in my dreams I see her  
But she didn't know, she thinks it was my show...

Night light  
Night light  
Night light  
Night light  
Night light  
Night light  
Night light  
Night light

She said to me if I couldn't see  
And deep in the night when I turned out the light  
She came near and nearer, and in my dreams I see her  
But she didn't know, she thinks it was my show...

Night light  
Night light  
Night light  
Night light  
Night light  
Night light  
Night light  
Night light
