

## Everything (Between Us)

Liz Phair

We have everything we need here  
We have everything between us  
You have nothing left to fear dear  
Cause it ain't ever gonna leave us

We might get a room downtown now  
Get away for a half day  
We might drive a car to the next town  
Get away from our family

Let your body move real slow  
Tell your body we left yesterday  
Let your body hold me close  
Let your body move you  
We have everything we need here  
We have everything between us

You have nothing left to fear dear  
Cause it ain't ever gonna leave us

Let your body move real slow  
Tell your body we left yesterday  
Let your body hold me close  
Let your body move you

Let your body move real slow  
Tell your body we left yesterday  
Let your body hold me close  
Let your body move you

Let your body move real slow  
Tell your body we left yesterday  
Let your body hold me close  
Let your body move you

We have everything we need here  
We have everything between us
