

# Girls! Girls! Girls!

Liz Phair

You been around enough to know  
That if I wanna leave  
You better let me go

Because I take full advantage  
Of every man I meet

I get away almost every day  
With what the girls call  
What the girls call, what the girls call  
The girls call murder

You been around enough to see  
That if you think you're it  
You better check with me

Because I take full advantage  
Of every man I meet

I get away almost every day  
With what the girls call  
What the girls call, what the girls call  
The girls call murder
