

Love Is Nothing

Liz Phair

You thought I was something from afar
You thought I'd totally excite you

I guess it's just another thing to stand up close and ignite yo
u

Love is nothing, nothing, nothing
Like they say...
You gotta pick up the little pieces every day

You were telling me the friends we have in common...
By the time I figured it out you were yawning

Love is nothing, like they say

You gotta get up and work the people everyday

And I thought, "Who am I?"
"Who's this guy?"
"Would I lie
To make the day blur into the night...?"
