

May Queen

Liz Phair

Don't be fooled by him he's fine.
Rock and roll Ken doll,
He's a national end-all,
He's an on and off friend of mine ...

Where have I been?
Got any what?
Who have I seen?
I spy a May queen.
You were miles above me,
Girls in your arms.
The changing of her majesty's guard is truly amazing.

Got any what?
Disease, hashish, a mind,
Do I have any what?

Where have I been?
Got any what?
Who have I seen?
I spy a May queen.
You were miles above me,
Girls in your arms.
You could have planted a farm
With all of them hay-seeds....
