

## Shatter

Liz Phair

I know that I don't always realize  
How sleazy it is  
Messing with these guys  
But something about just being with you  
Slapped me right in my face  
Nearly broke me in two  
It's a mark I  
I have taken heart  
And I know I will carry with me for a long long time  
I don't know if I could drive a car  
Fast enough to get to where you are  
or wild enough not to miss that boat completely  
I need, I'm fakin', baby  
You know just maybe  
I don't know if I could fly a plane  
Well enough to tail spin out your name  
Or high enough to lose control completely  
I need, I'm fakin', baby  
You know just maybe, maybe
