

Song For Mia

Lizz Wright

I went down to the water , all night long
I'm putting my feet in ,all night long

And I went down to the water , all night long
And I'm putting my dreams in , all night long

And what you think of me ,I can't say
I'll take these bad dreams and I'll drove along the way

I'm at the shore now , the shadows at my back
I can feel the waves coming there , heavy and black

But I can't turn away now 'cause I
They're singin' a song

And I , I'm in harmony
I'm singing along

And what you did to me I , I can't take no more
I'll take these bad dreams and I'll lay them at the shore

The end of the ocean I'll never see
I stare out in the distance and it's looking back at me

And I'll look down to the water all night long
And I'll put my feet in , all night long

And I'll put my dreams in , all night long
And I'll put my tears in , all night long
I went down to the water
