

American Metal

Lizzy Borden

Hearts of stone, skull and crossbones
We band together
The sound of steel, noise you can feel
The smell of leather

Suspended thighs, blackened cat eyes
We love to shout
The power's in the crowd
Cause we all, we all love it loud
The power's in the crowd
We love it loud

We all need - American Metal
Through and through - American Metal
You've got to bleed, You gotta bleed - American Metal
Red, white and blue, For me and you - American Metal

Hear the thunder, rumble under
It cracks the sky
May the dust never settle
Heavy Metal, will never die

Salute the flag and raise up your fist
To scream it out
The power's in the crowd
Cause we all, we all love it loud
The power's in the crowd
We love it loud

We all need - American Metal
Through and through - American Metal
You've got to bleed, You gotta bleed - American Metal
Red, white and blue, For me and you - American Metal

We all need - American Metal
Through and through - American Metal
You've got to bleed, You gotta bleed - American Metal
Red, white and blue, For me and all of you - American Metal

We all need - American Metal
Through and through, through and through- American Metal
You've got to bleed, yeah - American Metal
Red, white and blue, For me and you - American Metal
