

## Live Forever

Lizzy Borden

I'm on the inside looking through  
The Mask of Death we both knew  
The time would come for us to choose  
To run away from it all

I wanna fall asleep tonight  
Beware away into the night  
I won't look away  
I can't watch go out the light  
I will be forever  
Meet you on the other side  
We're in this thing together

I'm on the outside break 'n' free  
Now I have immortality  
This is the end of destiny  
Come run away from it all

You're gonna fall asleep tonight  
All Alone and dressed in white  
And for the dead the candle light  
Burns the night away  
Wicked schemes come out at night  
Blinding us together  
Meet you on the other side  
Kiss to kill surrender

Can you feel the darkness grow?  
The rush the black the never  
Only those who o one knows  
Are lost and gone forever  
Forever, forever  
We're gonna fall asleep tonight  
Time has come for us to run  
We will die alone tonight  
By poison and by dagger

It is the death of love that remember this  
Forget me not, no never  
This will be love tragedy  
The two of us whoever  
Meet you on the other side  
Where we will live forever

Forever, forever
