

Me Against The World

Lizzy Borden

It's just me
Against The world

Leave me alone
I'm on the defense
I'm not made of stone
Why doesn't that ever make sense
I'm sick of all this indecision
You're messing with my mind
This ain't no false facade
And this ain't no freak disguise

Cause I am for real
You don't know what I feel
My strength is in my will
I can not wait
I won't be second rate
In for the kill

It's me against the world
Me against the world
It's me against the world
Me against the world
It's me against the world
Me against the world
It's me against the world
Me against the world

Inside looking outside
Through a goldfish bowl
And It's hand over mouth stares
That make me lose control
If I'm an outcast
I'm not the last
I'm gonna have my say
They'll never take me in alive
I'm gonna make em all pay

Cause I am for real
You dont know what I feel
My strength is in my will
I can not wait
I won't be second rate
In for the kill

It's me against the world
Me against the world
It's me against the world
Me against the world
It's me against the world
Me against the world
It's me against the world
Me against the world

You can't face my life
You just won't think twice
I see it my way

I wont be the martyr
I know you see it wrong
The color don't belong
I'm holding tight
Don't you push me too far

Yeah
It's me against the world
It's me against the world
It's me against the world
Don't you push me too far
Yeah
It's me against the world

I'ts me against the world
Me against the world
It's me against the world
Me against the world
It's me against the world
Me against the world
It's me against the world
Me against the world

Don't push me too far
