

# Terror on the Town

Lizzy Borden

Creating havoc on the town  
Me and the boys we get around  
I pity the city in our way

We love to flirt with death  
Race it hard there's no second best  
Wild dogs in the street  
We run astray

We are terror on the town  
Get in the way we'll run you down  
We are terror on the town

You look at me you got trouble  
I got no cause I'm a frightened rebel  
I am the future from the past

We don't care about tomorrow  
At dark we romp so reckless ah  
No one could ever understand

We are terror on the town  
Get in the way we'll run you down  
We are terror on the town  
We all get around  
We are terror on the town  
Tonight it's going down  
We are terror on the town

We are terror  
We are terror  
We are terror  
We are terror

We are terror on the town  
Get in the way we'll run you down  
We are terror on the town

We're wrecking havoc in this town  
We are the lost that no one found  
Here we come round to your about

The taking is all there  
Men on the move we love a dare  
We are the dead, why should we care

We are terror on the town  
Get in the way we'll run you down  
We are terror on the town  
We all get around  
We are terror on the town  
Tonight it's going down  
We are terror on the town
