LL Cool J

Uh, yeah (si papi, uh, uh-huh)  
Uh-huh (I see you papi, si)

I was in Madrid yo  
Had this hot club shooting my video  
They was burning up the floor to that reggaeton  
Start to bailando soon as they put the record on  
I was sweating like a bullfighting matador  
It was the sexiest scene that I ever saw  
(La fiesta, tu mi a fuego)  
But I was still cool in my light blue Kangol  
I met this girl, she was off the chain yo  
Cooley head model from San Diego  
Father was from Trinidad, Tobago  
Mother was from Rio, de Janeiro  
She said please don't think I'm crazy  
But I've been in love with you since the 80's  
? cansando baby  
Have you ever been with a latin lady

Uh, she said there's one thing you should know  
(Just here to find to numero uno)  
Uh-huh (and I'll do anything to prove it)  
(If I can get with ya)  
Uh, she said there's one thing you should know  
(Just here to find to numero uno)  
Uh-huh (and it's on, one shot will do it)  
(If I can get with ya)

She said I wanna get with ya  
I'm talking more than an autograph and picture  
(Tu quiere, benita mi casa)  
I mumbled to myself, she's a monster  
She said (yo no se lo que no habla)  
Don't worry 'bout it lil' mama nada  
The chemistry and energy was getting hotter  
This ain't like me but I feel like I gotta  
She started moving near me  
Whispered in my ear so I could hear more clearly  
Said grab my waist and look in the mirror  
Then started winding it like Shakira  
All that shaking and belly dancing  
I was going under, I ain't stand a chance man  
If I do this, will I love it or regret it  
Tempted and I don't know where this is headed

(Wit'cha, wit'cha) Uh (uh)  
Yeah (si papi, uhh)  
(If I can get wit'cha)  
(Si papi, si) Uh-huh  
(Papi) If I can't get with ya

Then she kept begging saying let's go  
Pulling on my arm, wouldn't let go  
Rubbing my face, kissing my neck slow  
When we do it say hablando como  
She said (ooh papi te quiero mucho)

(I love you better than any woman you know)  
Just then my lady hit my cell phone  
I'll let y'all figure out the rest yo
