

## You II

Lloyd

Ever since the first time you laid in my bed  
Visions of you all in my head  
And ever since the first time that I said  
I don't want noone else

I love you girl  
I give you the world and more  
Yeah it's true girl  
This must be what we're here for

Woah  
Without your love girl I would die tonight  
Woah  
This must be what we're here for

As I... down the street  
I pray for your heart to keep  
I hope it lasts forever  
And... the way I feel with you  
It feels so real when I'm with you  
I'm a better man
