

# One Day

LMFAO

Sipping on this drink, have some time to think  
About where I was, and where I'm at today  
I'm getting everything I ask for  
Flying the world, filling up my passport  
I'm in the zone, martini's strong, my tall is short, but my money long  
I'm getting everything I ask for, in the club, always keep my glass full

Money in the bank, my car brand new  
I got everything I want, but you  
I might get you one day, I might get you one day  
House on a hill, hollywood view, got everything I want but you  
I might get you one day, I might get you one day

Hey, everybody came to play  
I love it when the dj, plays all my favourite songs  
And everybody sings along, I see the pretty babies in the pool

But all I can think about is you

Money in the bank, my car brand new  
I got everything I want, but you  
I might get you one day, I might get you one day  
House on a hill, hollywood view, got everything I want but you  
I might get you one day, I might get you one day

When I get you girl, you're gonna be so in love with me  
Everyday, we're gonna play, what's your fantasy?  
Every night I think of you in every way  
And when it get ya, imma celebrate

Imma celebrate! imma celebrate!

I'm gonna celebrate, cuz I'mma get you one day
